## SLCM bags SCMPPro Demand Planning and Forecasting Award

June 18, 2018 - by Bureau - Leave a Comment

**As on June 2018, SLCM manages a technology enabled network of more than 2,835 warehouses and 19 cold storages across India spread over 48.70 million sq. ft. area with a capacity of more than 662.62 million MT**

Sohan Lal Commodity Management (SLCM), India's leading agri services solutions provider has been conferred the "4th SCMPPro Demand Planning and Forecasting Award 2018" in "Best Demand Planning and Forecasting Practices in Agri" category for demonstrating best demand planning and forecasting function within the organisation. The award was presented at the fourth annual 'Demand Planning and Forecasting Forum' held in Mumbai recently.

Speaking post the award ceremony, Sandeep Sabharwal, Group CEO of SLCM said, "We are delighted to receive this recognition from 'Demand Planning and Forecasting Forum'. We believe that effective demand planning and forecasting plays a pivotal role in the operations of modern management. Towards this, we have grown with special focus on developing robust demand planning processes within the company and this award is a testament to the best practices followed at SLCM. I would like to thank the esteemed jury for recognising our efforts and considering us worthy of this honour."

Organised by Institute of Supply Chain Management (ISCM) along with SCMPPro, the Demand Planning and Forecasting awards (DPFF Awards) seeks to acknowledge organisations for successful demonstration of their commitment to excellence in all aspects of their operations, provides a platform to showcase innovative business practices and create an avenue for benchmarking their achievements against their peers. It recognises the best practices that corporate entities have adopted in demand planning and forecasting function as well as in sales and operational planning in 8 award categories, and in the process rewards their strategy, performance, and goals.

SLCM is equipped with technology to offer storage and protection services for the entire range of agri-commodities. It has been handling about 873 agriculture commodities including rice, wheat, maize, mustard, pulses, cotton, barley, bajra, castor seeds, spices among various other commodities across India. As on June 2018, SLCM manages a technology enabled network of more than 2,835 warehouses and 19 cold storages pan India spread over 48.70 million sq. ft. area with a capacity of more than 662.62 million MT.

The Group has also applied for patenting its scientific technology of storage – AGRI REACH. The efficacy of 'AGRI REACH' has been attested in a study conducted by industry body FICCI that found that storage losses could be reduced from 10 percent to a minimal 0.5 percent using the technology.

The Group also has a wholly owned NBFC – Kissandhan – in India which has changed the paradigm of collateral financing by financing across diversified agri products whilst being agnostic to balance sheet of the borrower yet complying with the prudential norms of RBI. In a short tenure, Kissandhan has already financed more than Rs 1570.21 crore for multiple commodities pan India. It has benefitted about 34,3806 farmers till May 2018.

– Recognized in 'Best Demand Planning and Forecasting Practices in Agri' Category – New Delhi, 18th June, 2018: Sohan Lal Commodity Management (SLCM), India's leading agri services solutions provider with operations across India & Myanmar has been conferred the "4th SCMPPro Demand Planning and Forecasting Award 2018" in "Best Demand Planning and Forecasting Practices in Agri" category for demonstrating best demand planning and forecasting function within the organization. The prestigious award was presented at the Forecasting Practices in Agri" category for demonstrating best demand planning and forecasting function within the organization. The prestigious award was presented at the fourth annual 'Demand Planning and Forecasting Forum' held in Orchid Hotel, Mumbai on 16th June 2018 in the presence of a distinguished gathering of business leaders, academics, and senior industry professionals. Mr. Ankur Jaipuria, Chief Business Officer and Ms. Neeta Israni, Assistant Manager, Corporate Communication at SLCM received the award from Mr. Vishal Dhawan, V.P Growth Market, JDA and Mr. Rakesh Singh Chairman, ISCM.

Speaking post the award ceremony Mr. Sandeep Sabharwal, Group CEO of SLCM said, "We are delighted to receive this recognition from 'Demand Planning and Forecasting Forum'. At SLCM, we believe that effective demand planning and forecasting plays a pivotal role in the operations of modern management. Towards this, we have grown with special focus on developing robust demand planning processes within the company and this award is a testament to the best practices followed at SLCM. I would like to thank the esteemed jury for recognizing our efforts and considering us worthy of this honor."

Organized by Institute of Supply Chain Management (ISCM) along with SCMPPro, the Demand Planning and Forecasting awards (DPFF Awards) seeks to acknowledge organisations for successful demonstration of their commitment to excellence in all aspects of their operations, provide a platform to showcase innovative business practices and create an avenue for benchmarking their achievements against their peers. It recognizes the best practices that corporate entities have adopted in demand planning & forecasting function and sales & operational planning in 8 award categories, and in the process rewards their strategy, performance, and goals. The award is judged by eminent jury comprising senior industry professionals in technology, demand planning and forecasting, business and innovation space.

The Supply Chain Management Professional (SCMPPro) is a thought leadership magazine for the supply chain professional from the Institute of Supply Chain Management, India's premier supply chain education, research, and consulting firm.
