Dvara Solution's Perdix is currently used by over 20 institutions and facilitates an assets under management of more than ₹15,000 crore.

By adopting Perdix, Kissandhan will enhance its ability to offer micro loan against property (Micro LAP), group loans, farmers loans, and medium-term loans. Kissandhan has already disbursed loans worth ₹3,263.99 cr to farmers and has impacted more than 7 lakh farmers, with 37,185 women loan beneficiaries in Agri and allied space (as on 30th April 2025).

The integration aims to streamline Kissandhan's end-to-end loan lifecycle workflows, facilitate growth and operational efficiency, improve customer experience while ensuring strict adherence to regulatory norms.

"At Kissandhan, our aim is to provide financial solutions of global standards that empower farmers and entrepreneurs across the Agri and Rural ecosystem. This collaboration signifies our commitment to creating a collaborative eco-system and improving efficiency along with transparency in the end-to-end loan lifecycle while providing peace of mind to our borrowers and customers. Partnering with Dvara Solutions will enhance our ability to offer tailored financial products with faster turnaround time. The integration of the Perdix platform will further streamline our lending processes, allowing us to provide customized loans to a broader range of segments, in rural eco system," said Gurinder Singh Sehmbey, CEO at Kissandhan Agri Financial Services.

Vijay Chand, MD & CEO, Dvara Solutions, said, "We are thrilled to partner with Kissandhan Agri Financial Services. This alliance underscores our commitment to empowering financial institutions with cutting-edge technology solutions that drive financial inclusion across India. Partnering with Kissandhan allows us to showcase Perdix's capability to handle all types of loan asset classes with ease."
