Empowering Farmers the SLCM way

Krishi Jagran | By: Chander Mohan | Updated: February 2, 2016 11:0 IST

An Agri-logistics company of Delhi FSSAI approved and WDRA accredited with ISO 9001:2008 and ISO 22000:2005 certified having a robust, reliable and scalable technology infrastructure. SLCM Pvt Ltd., has become a brand to empower the Farmers with their warehouse management and procurement solutions to farmers, processors, traders, agri-exchanges and government across 100 locations and 20 states PAN India. Sohan Lal Commodity Management Private Limited mission is to empower aspirations of the stakeholders by instituting a culture of trust, transparency and mutually rewarding relationships, based on sustained investments in state-of-the-art processes, technology and talent.

The First company in warehousing industry across the world to get patent of its process technology. AGRI REACH is the unique applications have been recognized by SAP Germany. SLCM is offering modern specific warehousing and storage services for a complete range of agri commodities with the help of advanced technology. The warehouses are equipped with communication facilities to enable real time visibility and date availability. The procurement, collateral management and quality testing are the salient features of the SLCM. The FICCI in their report featured SLCM as 'Innovation in Storage of Agriculture Produce' on the pulses storage. The expanding warehousing business outside the country and is in the process to start business in Myanmar and Africa in the next couple of the months are the future prospect. The full length interview and the view point of the CEO and Founder Sandeep Sabharwal shall be featured in the Krishi Jagran forthcoming issue as well as watch KJ You Tube Channel to have live experiences of the SLCM.
